GENERAL AND REVENUE SECRETARIAT.

Serial Nos. 26 (6)

Part B for July 1926

SUBJECT

— Cost of Female Dispensaries & Maternities.

---

26 To the Senior Surgeon in Mysore
the D. H. S. of Districts.
the Presidents of District Boards
the Comptroller to Govt.
No. 81064-59/- 28/6/26.

Passes orders in regard to the sanctioning of NB.

HRoy. 26/8/26 Jm

Serial No

(1) Minutes of the Second Member of Council, dated the 23rd May 1925, in Medical File No. 2[illegible] 24, re. allocation of the cost of the Maternity at Saklespur between the Government, the District Board, Hassan District, and the Municipal Council, Saklespur.

The fact that complete exemption is oppo ed to precedents may be pointed out to the President, but as there has been no uniformity in practice, and in view of a promise said to hav been made by the Offg. Dewan, Government may pe haps sanction half the charge from Malnad Im- - provement, if no separate provision is possible the other half being shared between the District Board and the Municipality.

(Intd) K. C.

2 Dewan's minutes dated the 6th July 1925 in the same file.

I agree with the Member re. Saklespur. -

As to the general question I think the - rule should be made uniform on somewhat the following lines:-

1. Cities - Lumpsum contribution by District Boards of Bangalore and Mysore, to be settled by mutual agreement no exceeding Rs. 5,000.

Rc. 2/3/26. Seen RG 27/3 MW 27/3

NOTE—Contn. Sheet

Statement showing the apportionment of cost of maintaining Female Dispensaries and Maternities in the State, between Government, Municipal and Local Boards.

Present Practice	Madras Practice	Senior Surgeon's Proposal.	Secretariat Notes.	Orders.
Pay of Lady Doctor and the cost of Europe Medicines are now met by Government and the remaining cost by the District Board and the Municipal Council in the proportion of 2/3rds and 1/3rd, respectively, except in the cases of the Maternities at Bangalore, Mysore, Kolar Gold Fields, Saklespur and Sagar. (For details vide 8ft in file) Hqrs	In hospitals situated in Municipal areas, the entire cost is borne by the Municipal Council. But whenever people living outside such Municipal areas are treated in the institutions, the Local Boards concerned contribute towards the maintenance of those dispensaries, in proportion to the number of patients from such areas, so treated free.	Government to meet pay of Lady Doctor and meet the cost of Europe Medicines, the whole of the remaining cost being met by the Municipal Council and the Local Boards in the proportion of 2/3rds and 1/3rd or such other ratio as may be determined by mutual consent of those bodies.	8487/30/3 1. Is this arrangement to apply to initial & non-recurring charges including outlay on buildings? 2. Municipalities have to bear under the proposed system a larger share than now and it is desirable to consult them. How are so many of them and what is the practice in ascertaining their opinion? Are all of them represented on any central authority consulted by them? 3. The suggested system gives relief to [illegible] welcome it.	Maybe approved DW 29/3 RG 29/3 ✓ DW 30/3 Thro Mr Sinha

Serial No.

are sure to ask for relief even in respect of existing institutions - This would mean transferring the burden to municipalities Would they agree?

5. If M'Bs get any relief in respect of present institution the money released should be earmarked for extension of Medical relief.

6. It is desirable to have a uniform system for all town dispensaries & Maternities for Women and that for old and new institutions.

7. Why shd any exception be made of Kidderpore, and Tangra? Even if there is any promise by Govt we may get it altered by consent to having uniformity and extending Med. relief.

8. A statement may be prepared & shd show what relief M'Bs would get and what burden municipalities would have to bear, in respect of existing institutions of this kind, if the new system is applied to them also.

19 With reference to the Second Member's minutes above the following note and statement are submitted.

1. The whole of the initial cost including the construction of buildings is to continue to be met by the Government and the local bodies in equal proportion as heretofore

2. The Municipalities concerned have to be consulted, through the Deputy Commissioners of the respective District, in case any change is proposed to be ~~brought~~ made in the existing state of things.

3. The proposed scales are intended to apply to the institutions to be opened hereafter. If the District Boards seek any concessions in case of existing institutions also it is open to Government to decline to sanction the request, owing to the poor financial condition of the Municipal Councils of the towns where the existing women hospitals are located.

4. This does not arise if the above ~~propose~~ view is accepted.

5. This is foreorders.

6. Same as above. The existing ratio has been fixed in each case independently with reference to the finances of the local body or bodies and the need for medical relief for women in the locality.

7. A statement showing the relief that District Boards would get &c, on account of the existing institutions of this kind, if the new system is applied to them, is appended. It is seen therefrom that the savings under the several District Boards are as follows:--

to the DB's required by the

The savings accruing as above can be utilised for opening new dispensaries in rural areas, provided Government can find their own share of the initial and recurring expenditure. The cost of opening a new Local Fund Dispensary is about Rs.2,586, recurring, in the case of maidan, and Rs.2,706, in the case of Malnad. Of this Rs.1,362, being the pay of Sub Assistant Surgeon and cost of Europe medicine, on account of each dispensary, has to be met out of State Funds, and the rest by the District Board.

Serial No

Contribute the pay of the Lady Med. Offrs and the Cost of Europe Medicines the remaining Cost being borne by the Dt Bds and Municipalities in the proportion of 2/3rds and 1/3 respectively with certain exceptions. In one case the Dt Bd pays 1/3 and the Municipality 2/3rds (Tanjore).

The proposal of the Senior Surgeon is that with regard to future dispensaries, Govt should, as now, contribute the pay of Lady Med. Offrs and the Cost of Europe Medicines and the balance should be borne by the [illegible] Dt. Bds. and the Municipalities in the proportion of [illegible] 1/3 and 2/3rds respectively. This is exactly the reverse of what obtains now.

Or such other proportion as they may agree to

Dt Bds will welcome this proposal but I doubt if Municipalities can undertake this burden. However, they can, it will mean Dt Bds to increase their Medical activities with diminished share of cost for each Medical institution to be started in the future. The matter may perhaps be placed before the Dt. Committee for medicine if Govt are generally agreeable to the Sr. Surgeons proposal.

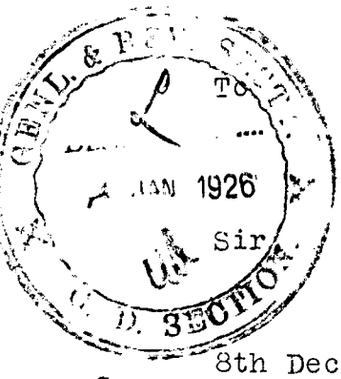
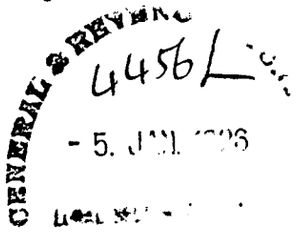
Office of the Senior Surgeon in Mysore,
Bangalore, Dated 31st December 1925.

Rec'd 2nd January 26 Med 85-25-2

From

Dr. B. Mahomed Usmon L.M.S.,
Senior Surgeon with the ~~Government of~~
His Highness the Maharaja of Mysore,
Bangalore.





To

The Secretary to Government,
Local and Legislative Departments,
Bangalore.

Sir,

With reference to your letter No. L.4137/Med.85-25-1, dated 8th December 1925, calling for my opinion on certain suggestions contanined therein regarding the apportionment of expenditure in connection with Maternities and Dispensaries for woman and children to be hereafter established on application from Local Bodies, I have the honour to state as follows;--

(1) Cities. The medical needs of women and children in the two cities of Bangalore and Mysore are amply met by the following - - institutions.

	Bangalore.	Mysore.
Out patients	6 Branch Dispensaries	5 Branch Dispensaries
In and out patients.	Maternity Hospital	Vani Vilas Hospital
	Female side of Victoria Hospital	Female side o the Krishna-rajendra Hospital
	St. Martha's Hospital	Mission Hospital

The chances of requisitions for the establishment of any more Female Dispensaries in the Cities are least likely. Should any such application be received, they will ordinarily be from the Municipal Councils, who will of course be required to contribute their share of the initinal and recurring charges in the same way as they now bear a portion of the cost of the Branch Dispensaries. The rational or the suggestion that the District Board alone should be made to pay a contribution not exceeding Rs 5,000/- meaning that the Municipal Councils will have nothing to pay in spite of the fact that the institutions will benefit the residents of the Cities more than the residents of the areas beyond the Municipal limits, is not understood.

No. G.C. 205-3 Office of the Senior Surgeon in Mysore,
Enc. Bangalore, dated 27th January 1926.

From

Dr. B. Mahomed Usmon L.M.S.,
Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore.

To

The Secretary to Government,
Representative Assembly, and Legislative
Council, Bangalore.

Sir,

With reference to your letter No. G.5258/Med.85-25-3, dated 21-1-1926, I have the honour to inform you that paragraph 640 of the Madras Civil Medical Code, would seem to indicate that the entire cost of Hospitals or dispensaries maintained by Municipal Councils is borne by those bodies, including the pay of the Medical Officer or subordinate in charge, and that where Government Officers are lent, the necessary contribution towards pension, etc., is also paid to Government, and that the Government contribute a certain percentage of the pay (5 %) of the Officer for Government work which he may have to do. Whether there is any apportionment of the cost between Municipalities and Taluk (or District) Boards on the ground that people belonging to nonmunicipal areas might possibly resort to municipal dispensaries for treatment, is a point on which information has been called for from the office of the Surgeon General and a further report will be submitted on receipt of a reply from that office.

I have the honour to be,

Sir,

Your most obedient servant,

M Usmon

SENIOR SURGEON.

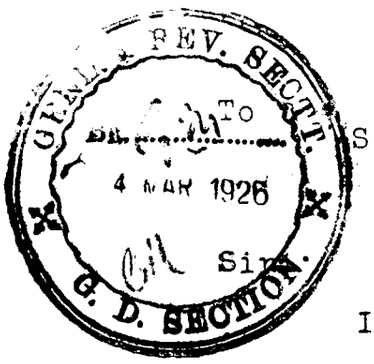
Med 85-25-5

From

Dr. B. Mahomed Usmon L.M.S.,
Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore.



To

Secretary to Government,
Medical & Agricultural Departments,
Bangalore.

Sir,

In continuation of my letter No. G.C.205-3, dated 27-1-26 on the subject of the apportionment of the cost of maintenance of female dispensaries and Maternities between Municipal and Local Boards and Government, I have the honour to forward herewith a copy of letter No. 35 Bud. dated 6th February 1926 from the Surgeon-General with the Government of Madras from which it will be seen that the Local Boards concerned do generally contribute towards the maintenance of Municipal Dispensaries, the amount of contribution being based on the average number of patients from the Local Boards area, treated free in the Municipal medical institution.

As already stated, the entire responsibility in the matter of maintenance of medical institutions ~~within~~ within municipal areas in Madras rests with the Municipalities concerned who meet the pay of the medical officer and the cost of Europe medicines. But in Mysore, these two items of expenditure are borne by the Government and the other recurring charges alone are recovered from the District or Municipal Boards as contribution, in the proportion fixed by Government.

As regards the future Female Dispensaries and Maternities also, it appears to me that it will be sufficient if the Government meet the pay of the Lady Doctor and cost of Europe medicines and require the local bodies to meet the whole of the remaining charges, the apportionment thereof between the Local and Muncipal Boards being fixed at one-third and two-thirds or such other ratio as may be determined by mutual consent of the bodies.

I have the honour to be,
Sir,
Your most obedient servant,

Mahomed

Letter R. No. 35 Bud. dated 6th February 1926, from the Surgeon-General with the Government of Madras, to the Senior Surgeon in Mysore, Bangalore.

With reference to your letter No. G.C.205-4, dated the 27th January 1926, regarding the apportionment of charges between the Municipalities and the Local Boards (Taluk or District Boards) on account of the maintenance of the Municipal Medical Institutions, to which patients from outside the Municipal area resort for treatment, I have the honour to state that the Local Boards concerned generally contribute towards the maintenance of such Municipal Medical Institutions under section 121 of the Local Boards Act 1920, with the sanction of the Local Government. The amount of contribution payable by the Local Boards is generally fixed on the basis of the average number of patients, from the Local Boards area, who are treated free in the Municipal Medical Institutions.

S. O.

Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE DEPARTMENTS.

G. O. No. G. 10642-59—Med. 85-25-6, dated 28th June 1926.

Cost of Female Dispensaries and Maternities.

Passes orders in regard to the apportionment of the ——.

READ—

Government Order No. G. 6123—G. 141, dated the 26th October 1875, directing that the pay of the Medical Officer and cost of Europe medicines of all Local Fund Dispensaries be met by Government and all other charges be met by the District Board and the Municipal Council in the proportion of two-thirds and one-third, respectively.

2. Correspondence ending with letter No. G. C. 205-6, dated the 4th March 1926, from the Senior Surgeon in Mysore, in the matter of the contribution of Local Bodies towards the cost of the maintenance of Municipal Dispensaries and stating that, as regards future Female Dispensaries and Maternities, it would be sufficient if the Government meet the pay of the Lady Doctor and cost of Europe Medicines and require the Local Bodies to meet the whole of the remaining charges, the apportionment thereof between the Local and Municipal Boards being fixed at one-third and two-thirds, respectively, or such other ratio as may be determined by the mutual consent of those bodies.

ORDER No. G. 10642-59—MED. 85-25-6, DATED 28TH JUNE 1926.

The existing arrangement is that the pay of the Lady Doctor and the cost of Europe Medicines are met by Government and the remaining cost by the District Board and the Municipal Council in the proportion of two-thirds and one-third, respectively, except in the cases of the Maternities at Bangalore, Mysore, Kolar Gold Fields, Saklespur and Sagar, in which the proportions vary. The Senior Surgeon considers that in the case of Female Dispensaries and Maternities to be started in future, it would be sufficient if the Government meet the pay of the Lady Doctor and the cost of Europe medicines and require the Local Bodies to meet the whole of the remaining charges, the apportionment thereof between the Local and Municipal Boards being fixed at one-third and two-thirds or such other ratio as may be determined by the mutual consent of those bodies.

Government consider that it is not possible to secure uniformity in apportioning the cost of Female Dispensaries and Maternities in Municipal Towns as the resources of District Boards and Municipalities and their eagerness to start such institutions vary from place to place. They are therefore pleased to direct that the proportion of the cost that has to be borne by Local Bodies may be left to be decided by those bodies in each case.

R. RANGA RAO,
Secretary to Government,
Medical and Agricultural Departments.

To—The Senior Surgeon in Mysore.
The Deputy Commissioners of Districts.
The Presidents of District Boards.
The Comptroller to Government.
